Our Team displayed the errand like form no wire circuit and Safe Stopping robot. Every one of the families were intuitive and performed "Build No Wire Circuit & Safe stopping robot" errand effectively. Mr.N.MANIVANNAN - Superintendent of Police likewise give a great discourse at that time additionally advises about the significance to have affect on Artificial Technology which will be assume a noteworthy part in our feature. Yes that he is genuine Artificial Intelligence will be outstanding amongst other modern innovation for our future life.

No circuit wire & safe for both old and young people

They were determined to enable kids and their families to wind up pioneers and trend-setters without bounds. Furthermore, in light of the fact that we need each tyke to have the chance to assemble the future, Curiosity Machine is 100 % free. Regardless of whether you need quality learning difficulties to do at home or educational programs for a classroom of energetic students, Curiosity Machine is an ideal wellspring of motivation to fuel curiosity, creativity, and steadiness while finding out about the science and innovation that will drive what's to come.

Venue:**ARDSP, Reserve Line, Madurai**

Date:**07.04.2018**

The Government of Karnataka is proud to be the first state to announce the establishment of a dedicated Start-up Cell! The Karnataka Start-up Cell's point is to advance Bangalore and Karnataka as a definitive start-up goal in the World.

NASSCOM, a not-for-profit industry association, is the apex body for the 154 billion dollar IT BPM industry in India, an industry that had made a phenomenal contribution to India's GDP, exports, employment, infrastructure and global visibility.

Established in 1988 and ever since, NASSCOM's relentless pursuit has been to constantly support the IT BPM industry, in the latter's continued journey towards seeking trust and respect from varied stakeholders, even as it reorients itself time and again to remain innovative, without ever losing its humane and friendly touch.

NASSCOM is focused on building the architecture integral to the development of the IT BPM sector through policy advocacy, and help in setting up the strategic direction for the sector to unleash its potential and dominate newer frontiers.

NASSCOM's members, 2200+, constitute 90% of the industry's revenue and have enabled the association to spearhead initiatives at local, national and global levels   In turn, the IT BPM industry has gained recognition as a global powerhouse. In India, this industry provides the highest employment in the private sector.

WOMEN TECH MAKERS

OBJECTIVE OF THE EVENT IS TO CREATE WOMEN EMPOWERMENT

After the finish of Artificial Intelligence Family Challenge program in the morning session the never get worn out and furthermore composed an another superb occasion in that same day for ladies understudies to propel them in advanced innovation. Our Women Tech Makers Madurai and Geeksup have composed the occasion to engage ladies' learning in Technology Armed Reserve DSP Office, Madurai. The occasion saw in excess of 50+ Energetic Girls and 10+ Police Officers. Mr. Senthil Kumar, Ex Employee of Qualcomm and Samsung, Hosted and took away the show vivaciously, every one of the speakers motivated Girls with their discourse. All were interfaced with the speakers for the whole program.

Enabling ladies to seek after their fantasies and construct their own versatile application to determine the issues progressively. Having a decent variety of points of view and thoughts prompts better basic leadership, more important items, and makes the business considerably more fascinating. We trust that by making the correct conditions, projects and arrangements, ladies in tech are better situated to drive change in the business and past. Technovation challenge 2018 young ladies were pitch their thought and got a great input from group of onlookers. Thought isn't great when its ideating, it would be incredible when it should executing, Two times technovation victor Ms.Girija and Ms.Vaishnavi shared their involvement in Women TechMakers and Technovation to technovation Girls like how to pitch and make paper model. Young ladies began their following stage (paper prototype) of technovation. Such a magnificent occasion gone at Madurai that is Women Tech Maker @ 2018.
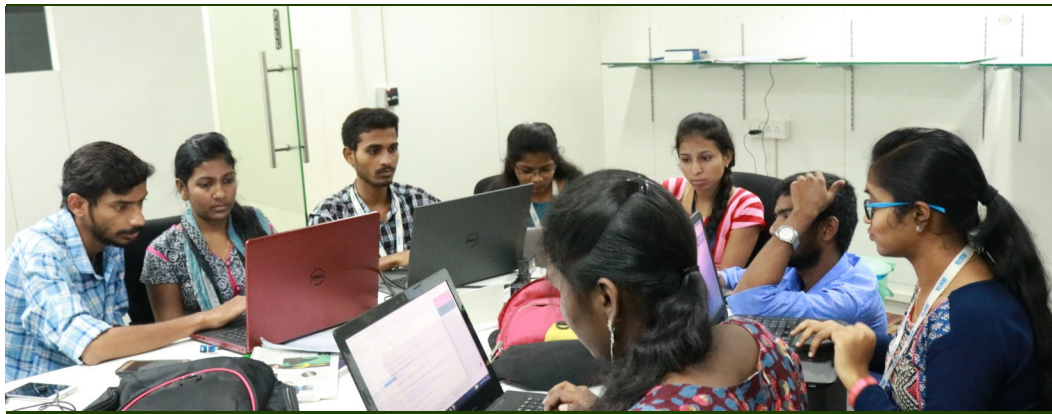

Congratulations !

S.Aishvariya Devi

Out of Box is a life-changing event in my life.

This internship highlighted my resume among 2000 job applicants which accentuated and helped me to get placed in TCSL interview.

Myself S. Aishvariya Devi. I got job in TCSL (Tata consultancy and service limited). Participated in OWC (open web challenge) . Then I got a great opportunity to get into OutofBox at Nasscom, Bangalore. I gained more experience and knowledge about latest technologies. This intern highlight my resume among 2000 job applicants in TCS interview.

I also got an opportunity to mentor women students in WWH (world women Hackathon) which was organized by geeksup. Apart from this , I also working as a freelance (web developer).

Out of box is the life changing event in my life.

- AISHVARIYA DEVI

OUT OF BOX AND ITS IMPACT

It's about instilling the ability to think and see things in a new way exploring the possibilities around. Out of Box is an initiative of Geeks Up sponsored by Google Developers. What would be a perfect place for this rather than the electronic city of India, Bangalore? Out of box has got its place in NASSCOM Bangalore, a start-up warehouse which is a place where thousands of people strive to shape their ideas into reality. Out of box does not teach you like regular coaching or internships, rather it helps you choose better domains or explore your areas of interest both in technical and non-technical streams. It gives you an opportunity to interact with start-up initiators, Industry experts through campus visits exposing you to the practical world that you don't get to see elsewhere.

By the end of the program one learns how to be confident in projecting their ideas calculating all the pros and cons by validating their statements. To sum up, Out of Box is a packet that has knowledge, exposure, experiences and motivation.
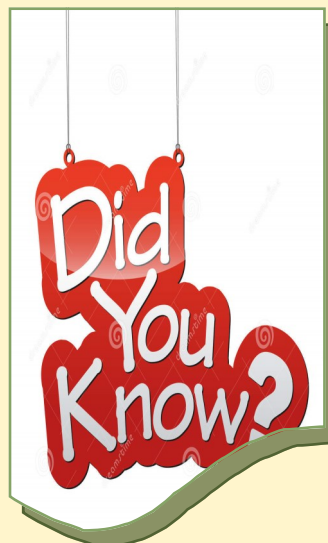

SCHOLOR ASPECT:

Hi this is Salman am going to share my experience here about the program which I attended.

This program made me and my friends to feel the corporate culture by having lots of interaction with the start-up teams and also we came to know what they are expecting from the students.

Am thanking MR. Senthil Kumar and his team for providing a wonderful platform for the students to make their vision success

THE FACT ABOUT SWIFT :
An IOS Programming Language

Swift is a general-purpose, multi-paradigm, compiled programming language developed by Apple Inc. for iOS, macOS, watchOS, tvOS, and Linux. Swift is designed to work with Apple's Cocoa and Cocoa Touch frameworks and the large body of existing Objective-C (ObjC) code written for Apple products. It is built with the open source LLVM compiler framework and has been included in Xcode since version 6. On platforms other than Linux, it uses the Objective-C runtime library which allows C, Objective-C, C++ and Swift code to run within one program
